We feel it is very important to let you know what we are doing at Absolute Health Chiropractic in response to the COVID 19 virus because the health and well being of our patients is our top priority. First, let us assure you we are doing what we do best:

Providing the best chiropractic care to anyone in need

That said, we are doing it with some changes.   After talking to other practitioners, we have removed all kids' toys, magazines and even community pens from our office for the time being. Going forward, we will not require signatures for credit card payments. If your insurance requires you to fill out paperwork, you are now the proud owner of a brand new pen!

We will continue to wipe our tables down and change our face paper, but we have started spraying doorknobs and wiping the reception room chairs and other hard surfaces down with increased frequency throughout the day.

With this said, our team understands that this virus is serious and every patient should do what is best for them and their family during the next weeks and months. Please use your best judgment in keeping any appointment, not just at our office. If you feel "under the weather," contact your primary care physician and follow their instructions. As always, if you have any questions please use us as a resource; if we do not know the answer; we will try to find it for you.

We are monitoring the local news and actions of the community and if the landscape changes, please be assured that our office policies will change with it. We are, as we have always been, here to serve you. As things change, please check our voicemail, our Facebook page and our website; we will try our best to get updates to you as soon as possible. If you have a scheduled appointment and you are not able to keep it, please let us know so we can open it to someone else. If you are unable to make your appointment, AHC will not be charging any NO SHOW fees for the foreseeable future.

Above all, please stay healthy and safe.

In Health,
Brian, Diane, Chris & Rebecca
